PROJECTS

CODER WEBSITE (2022)

Developed a website for coders using HTML, CSS, and JavaScript. My role in the project was to create the design layout and implement the functionality using the mentioned technologies.

PERSONAL WEB PORTFOLIO (2023)

Personal Web Portfolio, Developed a website that serves as my personal portfolio to showcase my skills, experience and projects I have worked on.

BANK FILM WEBSITE (2023)

I have created a simple website project called "Bank Film" using React Js combined with Bootstrap.

WORK EXPERIENCE

Consumer Business Staff – PT Bank Syariah Indonesia, Bekasi City

February, 2019 – Now

As a Consumer Business Staff at Bank Syariah Indonesia, my main responsibility is to assist in the disbursement of consumer financing and maintain the quality of our customers. I am also responsible for all aspects of consumer financing for our customers.

Junior Front End Developer (Self-Employed)

December 2022– Now

As a self-employed Junior Front End Developer, I have been working on various personal and freelance projects, utilizing my skills in HTML, CSS, JavaScript, Bootstrap and JQuery. I am responsible for creating visually appealing, responsive and user-friendly websites for my clients. My main responsibilities include designing website layout, implementing the functionality, and developing the content. I also tested the website to ensure compatibility with different browsers and devices.
